# Cybersecurity Reporting

OMB publishes, both quarterly and annually, agency-specific statistics about the cybersecurity posture of the 24 CFO Act agencies

- Cross Agency Priority (CAP) Goal Update –published quarterly on performance.gov
- Annual FISMA Report\* – published annually, no later than March 1<sup>st</sup>

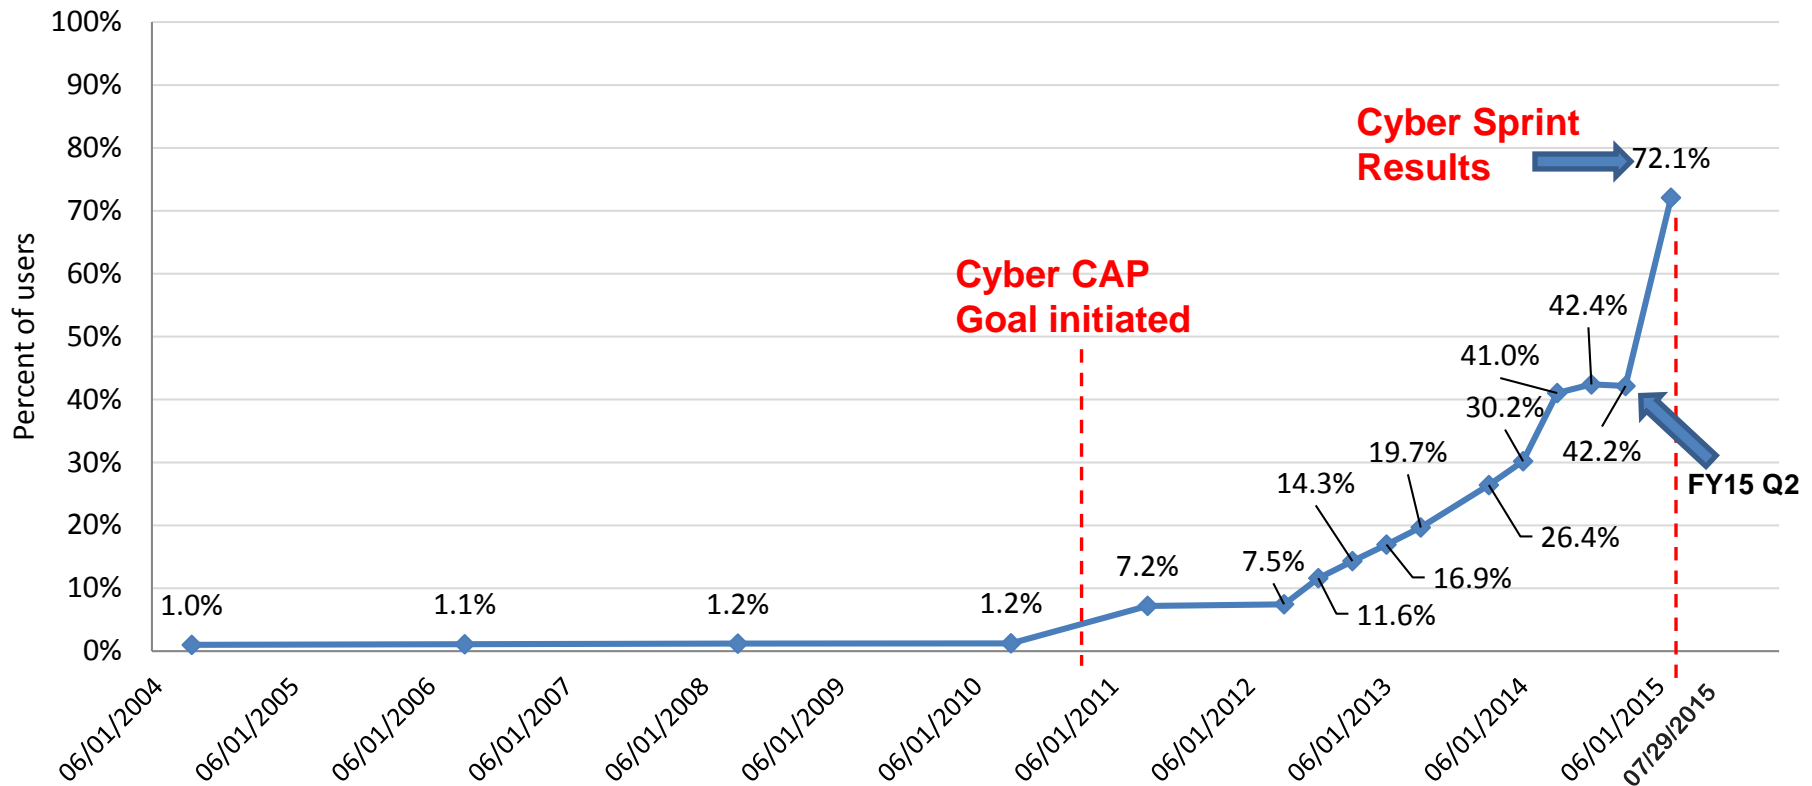

OMB Cybersecurity Sprint Results follow the same methodology used to report the CAP and FISMA reports

The FY 2015 Q3 Cybersecurity CAP Goal report, scheduled for a September release, will provide the next update on progress

\*In past reports, the Cybersecurity CAP Goal report used an all user statistic to track strong authentication. In keeping with the new Cybersecurity CAP Goal reporting introduced in Q1, this report highlights Privileged and Unprivileged user data.
